Movie Night — Monday at 7:30 pm **The Invisible Patients**

The Invisible Patients tells the story of Jessica Macleod, a nurse practitioner, and four homebound patients she cares for in Evansville, Indiana. Together they put a human face on some of the most urgent healthcare issues facing our nation, from the living conditions of the elderly poor and end-of-life care, to the soaring costs of hospitalization, complexity of insurance and overprescription of opiates. This movie pulls back the curtain on a hidden, vulnerable population, whose circumstances ask us to wrestle with not just healthcare policy, but as importantly, how to mend today's fraying social fabric. Don't miss it! (1.5 CH)
